

**Students****Activities****Access to District-owned Electronic Information Resources**

The Watertown Unified School District Board of Education recognizes that electronic resources are a powerful and compelling means for students to learn core subjects and applied skills in relevant and rigorous ways. It is the District's goal to provide students with rich and ample opportunities to use technology for important purposes in school just as individuals in workplaces and other life settings. The District's technology will enable educators and students to communicate, learn, share, collaborate and create, to think and solve problems, and to manage their work.

Parents/guardians and students are responsible for upholding the legal and ethical standards that students should follow in accordance with District policy, procedures, and school rules. To that end, the Watertown Unified School District supports and respects each family's right to decide whether or not to accept access to electronic information, resources, and equipment. Student access to, and use of, electronic resources will be permitted for all students enrolled in the Watertown Unified School District. Parents may restrict access to electronic information resources by completing and submitting the Parent Denial of Access Form.

**Policy Approved:            March 13, 1996**
