Physical Education (PE 9)	1.5 credits
Health	0.5 credits
Financial Literacy (Money 101, Economics, or Personal Finance)	0.5 credits
Electives	8.5 credits

In order to be eligible for a Watertown Unified School District high school diploma, a student must have taken and successfully completed a course (0.5 credit minimum) that provides a post high school course experience. This could include, but is not limited to, AP, Dual Credit, Transcribed, and Articulated Courses. The post high school course can be applied to an elective or required class (ie. AP Biology would count for both Science and the post high school requirement).

In order to be eligible for a Watertown Unified School District high school diploma, a student must have taken and successfully completed (with a score of 65% or higher) the state-required civics test while enrolled in the high school grades in the District or, as determined by the administration, in another qualifying school or program. A student with a disability for whom an individualized education program (IEP) is in place must also take the civics test; however, his/her graduation shall not be contingent on a specific passing score.
